

# THIS

# IS DANIEL

Daniel is just a young man trying to survive in the world of science communication and child entertainment. But for Daniel, his job can be a greater struggle than many could ever imagine.

You see, Daniel may never know the sight of a clean coffee cup. He might never experience the joy of an empty sink. His time at Scitech could be

cut tragically short by an infection brought on by unhygienic and unsanitary amenities, or by the wasps thus attracted. (Yes, an actual wasp was found.)

This is the world that Daniel works in. It is not a world of his making, and there is not much that he alone can do to change it. All he has is the hope that he will make it through each shift.

# BUT YOU CAN MAKE A DIFFERENCE

All it takes is ONE MINUTE a day, and you can give Daniel the opportunity that every science communicator deserves. So clean it up. For Daniel's sake.
